

Marilyn M. Bruneau
Arthur Andersen LLP
1345 Avenue of the Americas
New York, NY 10105

Lynn is the partner in charge of the Technology Risk Consulting ("TRC") group in Arthur Andersen's Metro New York region. Lynn and her group provide technology management and control-related support for the firm's financial audit and Internal Audit services practices, and related technology risk and control consulting for an even broader client base. Her group provides both auditing and consulting services related to the assessment, design and implementation of processes and control mechanisms that allow companies to more effectively manage the risks associated with the deployment and use of information technology.

Lynn works primarily with large, global clients with complex technology infrastructures. At Andersen, her clients have included American Home Products, AT&T, Avaya Communication, Agere Systems, Cendant Corporation, Colgate-Palmolive, Goldman Sachs, ITT Industries, Kodak, Lucent Technologies, MetLife, NewsCorp, Prudential Insurance Company, Rutgers University, Texaco, Tyco Industries, United HealthCare, Venator and Verizon. She is the co-author of a definitive text "21st Century Money, Banking & Commerce" and a white-paper entitled "The Management of Risks Created by Internet-Initiated Value Transfers", both published by the National Automated Clearing House Association.

Prior to joining Arthur Andersen early 1996, Lynn was a Vice President with Goldman, Sach & Co., working with a group of senior partners responsible for instituting an effective control program within the firm to identify and minimize reputational, operational, regulatory and financial risks. Before joining Goldman, Lynn was an Information Technology audit partner with another "Big 5" firm for eight years, where her global clients included AT&T, NYNEX, Ameritech, Bellcore, Prodigy, CBS, Dow Jones, Dun & Bradstreet, Goldman Sachs, U.S. Trust, Smith Barney, Mars Inc., Philip Morris, Unilever and American Brands. She also has 8 years of experience as a programmer, systems programmer and systems analyst in a university computing environment.

Lynn graduated from the Massachusetts Institute of Technology with a B.S. in Theoretical Mathematics and has completed all of the course work and thesis research for an M.S. in Geophysics at the Pennsylvania State University. She was a charter member of the Certified Information Systems Auditor certification program, and is a member of the Academy of Women Achievers, sponsored by the New York YWCA.
